PROFILE

A motivated and detail-oriented application developer with hands-on internship experience in enterprise web application development. Experienced in developing and maintaining internal applications using ASP.NET, C#, SQL Server, and JavaScript. Demonstrated ability to work with complex business workflows, approval systems, and database-driven applications. Familiar with CI/CD processes using Azure DevOps and collaborative development in agile environments. Seeking an opportunity as a .NET application developer to further enhance technical skills and contribute to building reliable and scalable business applications.

EDUCATION

BINUS University

2022 – Present
